

With a Wisconsin ENERGY STAR® Home, the Difference Is In the Details.

Meigs, Inc. takes a unique approach to new home construction. Our designs include the custom comforts you expect. Plus, we pay special attention to the details that make your new home safer, more comfortable, more durable and energy efficient.

Our Wisconsin ENERGY STAR Certified Homes are:

- Properly framed, insulated and tested to perform
- Evaluated for their efficiency throughout construction and certified by an independent consultant
- Comfortable, durable, safe and energy efficient
- Estimated to be 25 percent more efficient than Wisconsin's Uniform Dwelling Code requires

With a builder who participates in the Wisconsin ENERGY STAR Homes Program, the difference is in the details. Contact us today!
